

The Canadian Elevator Contractors Association is an active group of industry enthusiasts in tune with the changes and developments within the vertical lift industry.

The Committees shown below are but a few of the areas that C.E.C.A. is dealing with on a constant basis. The association never shrinks back from its duties to protect and keep informed their members of any and all issues. These can come from federal or provincial governments or from businesses that threaten to undermine our position.

The Application for Membership is located on the inside of the brochure and can be processed by submission to the Membership Chair.

From all the members of the Canadian Elevator Contractors Association all the best and hope to see you at our next annual convention.

The Canadian Association is represented by three regions: Eastern, Central and Western as well as international members. The following are some of our key objectives:

- ☑ to nurture relationships between elevator contractors and suppliers in the various areas;
- ☑ to be accessible to start up companies within our industry;
- ☑ to work with the government agencies at various levels;
- ☑ to be involved in the consultation process when new code is proposed and introduced;
- ☑ to work with insurance companies to ensure member contractors receive equitable rates;
- ☑ to promote the 'Safety Rider' program in elementary schools through school districts within each province.
- ☑ to maintain and increase the CECA membership.

Canadian Elevator Contractors Association
